# SOUTH CHAPEL

Our South Chapel has the capacity to comfortably seat up to 105 people. The wide screen colour monitor in the adjoining Columbarium enables additional friends to participate in the service.

The chapel provides a calm, peaceful and befitting place of remembrance for families and friends to reflect and celebrate the life of a loved one.

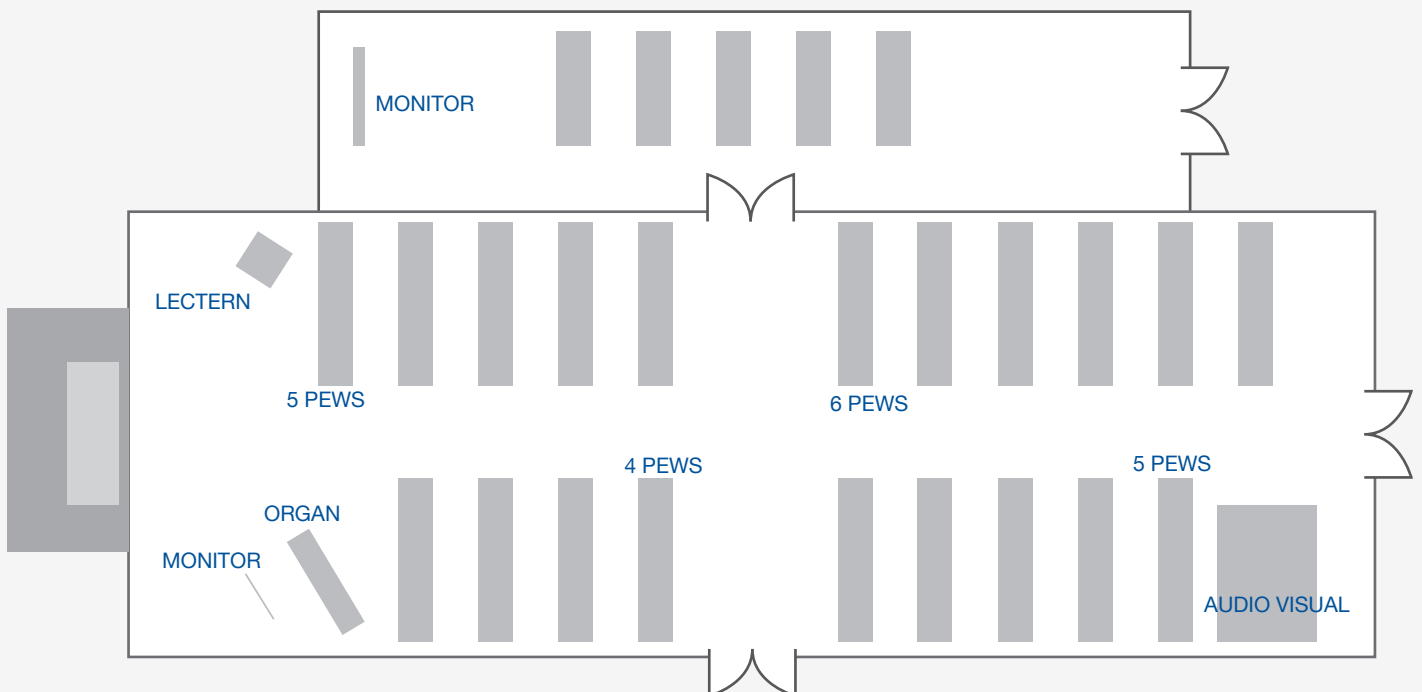

There is audio visual equipment and a widescreen monitor to display PowerPoint compilations and images, play recordings of music and other transcripts for families and friends to share in the life and remembrance of their loved one.

For those unable to attend, whether they are overseas, interstate or otherwise committed, web casting is available to ensure all are able to share in the service.

## Chapel Interior

The classic art deco interior embraces warmth, neutral tones and is complemented with elegant leadlight windows.
